The Research Centre of the School of Economics and Business,
in cooperation with **the Bank of Slovenia,**
cordially invites you to a research seminar
on **Thursday, 2nd April 2020**
at **13:00** in room **P-119**
at **the School of Economics and Business, University of Ljubljana**

Author:

Prof. Dr. Mario Valentin Wüthrich

ETH Zürich

will present the article

From Generalized Linear Models to Neural Networks, and Back

We present how classical generalized linear models can be enhanced by neural network features. On the way to get there, we highlight the traps and pitfalls that need to be considered to get good statistical models. This includes the non-uniqueness of "sufficiently good" regression models, the balance property, and representation learning. These considerations bring us back to the concepts of the good old generalized linear models.

You can register for the free seminar by phone (01) 58-92-489, or via e-mail: research.seminars@ef.uni-lj.si by Wednesday, 1st April 2020.

You can find all information regarding future research seminars on following link: http://www.ef.uni-lj.si/raziskovanje/seminarji_in_konference

We look forward to seeing you!
