

The Research Centre of the Faculty of Economics
cordially invites you to a research seminar
on **Thursday, 24th May 2018**
at **10 a.m.** in room **P-119**
at the **Faculty of Economics, University of Ljubljana**

Author:

**Prof.dr.ir. Hajo A. Reijers, a full professor in Business Informatics at the
Department of Computer Science of the Vrije Universiteit Amsterdam (VU)**

will present the article:

“Business Processes: All Around Us”

“In this seminar, I will provide an overview of the research that is taking place within the Business Informatics group at the Vrije Universiteit in Amsterdam (see <http://busi.cs.vu.nl/>). We are particularly interested in the challenges that arise from organizations using different artifacts to describe procedural knowledge, such as process models, textual descriptions, checklists, etc. We have witnessed such challenges first-hand within organizations that we work together with. In response, we developed various techniques to extract process knowledge from such descriptions and to detect any inconsistencies across descriptions that target the same process. I will also briefly describe some research projects that we just started to work on.”

You can register for the free seminar by phone (01) 58-92-490, or via e-mail:
research.seminars@ef.uni-lj.si by Wednesday, 23rd May 2018.

You can find all information regarding future research seminars on following link:
